Chennai, India - github.com/Gogul11 - linkedin.com/in/gogul11

Education

B.Tech in Information Technology, College of Engineering, Guindy – Anna University
CGPA: 8.24 (up to 6th Semester)

Expected 2027

Skills

Languages	C, C++, Python, JavaScript, TypeScript, Java, SQL
Frontend	React, React Native, Next.js, Tailwind CSS, Electron.js
Backend	Express.js, Spring Boot, FastAPI
Databases	PostgreSQL, MongoDB
Tools and Cloud	Git, Postman, Docker, Figma, AWS
Concepts	Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems

Experience

Anna-Oasis

[PlayStore](#) - [Certificate](#) - [Website](#)

Tech Stack: React Native, Express.js, AWS, Cloudflare R2

Internship (Frontend Developer) - Anna University (May 2025 – July 2025)

- Developed and maintained a React Native mobile application for international student hostel admissions and management, serving over 200 students by implementing frontend features, reusable components, and REST API integrations.
- Led the development team in successfully launching the application for production use.

Projects

Project L

[Gogul11/Project-L](#)

Tech Stack: Qwen (Ollama), Llama3.2:3b (Ollama), LangChain, FastAPI, Next.js and SQLite

- Built a personalized AI assistant, featuring persistent conversation memory, chat summarization, multi-step tool calling, and context-aware interactions. Implemented extensible tools for system control, chat retrieval enabling agentic task execution beyond conventional chat.

Lew

[Gogul11/Lew-bot](#)

Tech Stack : React Native, Express.js, MongoDB, ESP32, Embedded C++, BLE

- Built an ESP32-powered BLE robot that autonomously follows users by dynamically adjusting motor speed using real-time BLE RSSI signal strength.
- Implemented BLE communication, QR-based bot assignment, and secure booking verification using Express.js and MongoDB.

Orca

[Gogul11/ORCA](#)

Tech Stack : Electron.js, Node.js, React, and TypeScript

- Developed a cross-platform Electron-based IDE for offline laboratory assessments, featuring LAN-based communication, submission management, resource sharing, and real-time chat.

Oriyam

[Gogul11/Oriyam](#)

Tech Stack: React Native, React.js, Express.js, TypeScript, PostgreSQL, Cloudflare R2

- Developed a full-stack land rental platform enabling land listing, browsing, deal requests, payment workflows, and administrative management using React Native, Node.js, and PostgreSQL.

Achievements & Extra-Curriculars

- 1st Place – Service Design Jam by BNY Mellon, Kurukshetra'25 sdj-25.vercel.app
- ISTA CEG - Deputy head - Web Development domain (Present)
- ACM CEG Chapter – Senior Coordinator, Web & App Domain (2024, 2025)
- CEG Tech Forum – Projects and Research Organizer (2024, 2025)
- Letters of Appreciation - gogul11.github.io/portfolio/#loa
